To

Recruitment Officials

Dear Sir/Madam,

I, Omkar Gokhale, Santa Clara University's MS Information Systems program graduate, would like to submit my candidature at your organization.

I am passionate about Business Intelligence and finding patterns or trends through data. I would like to help companies analyze their progress or drawbacks in multiple dimensions though analysis of current and historical data and help them take strategic decisions. I have a short experience of working in emerging startups in Business Intelligence and Analytics Departments.

I have good understanding of Business Intelligence Life-Cycle and hands-on experience with BI tools; including Data Transformation tools like **Alteryx, SSIS, Microsoft Excel** and Visualization tools such as **Tableau, Microsoft Power BI, SSRS and Qlik**. I also assisted in data understanding, cleansing, and profiling tasks, data transformations**, ETL** processes and data visualizations. I have performed **statistical** data analysis with **Python** using **Numpy, Pandas and Scikit-Learn** packages of Python and currently exploring exciting **Machine Learning** Techniques. As my experience and interests completely align with the job description, I am sure I will work well with valuable guidance from seniors.

I hope for your kind consideration.

Sincerely,

Omkar Gokhale
